## **Purpose**

The purpose of this document is to detail the engine/component models on which Mint Turbines, LLC has capability to perform inspection, repair, overhaul and test activities and thereby defines the scope of approval granted to the company by the FAA under Repair Station Certificate # 5MNR431B.

## **2.0 Scope**

Engine models itemized in these lists are complete assemblies, however, the individual piece parts and sub-assemblies of these are also considered to be covered by the entry in the list of the complete assembly.

## **3.0 Responsibilities**

Quality Manger  
General/Accountable Manager  
FAA PMI

## **4.0 Definition of Terms, Abbreviations, and Acronyms**

MTLCL: Mint Turbines LLC Capability List  
FAA: Federal Aviation Administration  
FAA PMI: Federal Aviation Administration Principal Maintenance Inspector

## **5.0 Instruction**

### **5.1 Control Instruction**

- 5.1.1 This repair station may perform maintenance, preventive maintenance, or alterations on the articles listed in a Capability List. The General/Accountable Manager is responsible for ensuring that this repair station's Capability List is consistent with the repair station ratings. Before placing an article on the Capability List, the Quality Manager will:
- Determine that the article is within the scope of the repair station's ratings.
  - Perform a self-evaluation to determine that this repair station has the appropriate housing, facilities, equipment, material, technical data, processes, and trained personnel to perform the work on that article as required by Part 145.
  - Document the results of the self-evaluation.
  - Keep a copy of the self-evaluation assessment on file.
- 5.1.2 The General/Accountable Manager will review and approve the evaluation before establishing or revising the Capability List. The Capability List is a controlled document, and once an initial list or revision has been approved by the General/Accountable Manager it will be forwarded to the FAA by electronic means within seven days of creation or revision.
- 5.1.3 A copy of the self-evaluation check list as described in paragraph 5.1.1 above is located in the forms manual and is identified as FRM-376.
- 5.1.4 FAA acceptance will be recorded on the List of Effective Pages (pg. 3)
- 5.1.5 Amendments will be marked with an ascending revision number. In case of an amendment the Capability List will be revised in its entirety – there is no exchange of individual pages.
